Windsigns ... External advertising solutions

Designed for external selling situations .. the 'Street Talker' is ideal because of it's flexibility when windy. 50mm springs are mounted to the bottom of the sign and allow the sign to move and remain stable when windy.

The base is a moulded ABS plastic and is designed to hold water for extra stability.
It's fitted with wheels for easy movement.

The sign features a mitred corner snap frame which features rubber side profiles ... to prevent moisture entering the sign area.
An anti reflection PVC cover extends over the sign as well.

Sign size is A1 - external size 913 x 666mm
Poster size 841 x 594mm

Height is 1220mm Aluminium frame has a 45mm face - snap frame.

The 2 spring base holds 17 litres of water.
The 4 spring base is for A0 size posters and holds 27 litres of water (approx 27kgs).
Sign backing is a water resistant, high density corflute style material.
