

Poster Snap Frame

POPStar
Point Of Purchase
Displays and Stands

In retail outlets .. wall space is often limited

A stylish and elegantly simple way of displaying hanging posters.

The system consists of a top and bottom satin anodised aluminium profile.

The top and bottom are a 'snap frame' ... so it's really quick and easy to clamp posters into position. The aluminium profile is 26mm wide and comes in various lengths.

The poster clamps 15mm of the poster at the top and bottom ... please allow for this in your artwork and design.

Supplied with moveable hangers. An adhesive rubber insert is also included for super firm yet soft grip.

Order Codes and sizes :

TX3000 - 1000mm width
TX3001 - 841mm
TX3002 - 700mm
TX3003 - 594mm
TX3005 - 420mm

(Add 6mm for overall size of the aluminium top & bottom sections)
